

Team Directors Report

The 2010-2011 season produced mixed results for the county. I organised summer training for the senior squad which was run for the county by Peter Knowles and Lesley Uphill, which both myself and many of the players were grateful for their input.

The first team was plagued by sickness and injury during the season, which led to the team dropping back to division one for next season. I must say a big thank you to those players who turned out with very little notice to stand in.

The second team had a great season and finished as runners up in division 2 behind Sussex 1st team who came down from division one the previous year. We tried several different pairings throughout the season and many thanks to the players who all did their best to achieve a great team result.

Kent 3rd team had a great year and finished as runners up to Hertfordshire who had a very strong side winning all 8 of their games this season. We had several new players in the team this year and all have performed beyond expectations and I hope will continue to do so.

During the year I had great help and support from the players and also from my team captains whose help and input was invaluable.
